In 1971, Daniel Ellsberg, a leading Vietnam War strategist, concludes that America's role in the war is based on decades of lies. He leaks 7,000 pages of top-secret documents to The New York Times, a daring act of conscience that leads directly to Watergate, President Nixon's resignation and the end of the Vietnam War. In this film, Ellsberg and a who's-who of Vietnam-era movers and shakers give a riveting account of those world-changing events.
